Reyoungel Cross-linked Hyaluronic Acid- Dermal Filler

What is Hyaluronic Acid?

Hyaluronic acid is a polysaccharide and is one of very few substances that it is identical in all species and tissue types. Hyaluronic acid also exists naturally in our bodies and its most important function is to carry and bind water. It plays an important role giving volume to the skin, shape to the eyes and elasticity to the joints. It can be found in the eyes, tendons, articulations, and above all in the dermis of the skin. With the years our skin produces less hyaluronic acid, which is the result of normal aging process. Your skin becomes thinner and as a result, it becomes loose and starts to wrinkle.

What is Reyoungel?

Reyoungel is biodegradable gel made of non-animal cross-linked hyaluronic acid. They offer a complete solution for treating facial lines, wrinkles, and lips. It can also be used in facial sculpting by enhancing natural facial contours and features. There are three types of products can be Chosen: Reyoungel Derm, Reyoungel Deep and Reyoungel Fine. These three products make it possible to quickly and effectively meet the vast majority of patient's needs for correction and augmentation of wrinkles and folds.

Reyoungel Products info

	Deep Deep	Deep	Fine Fine	Derm Derm	Subtle
Concentration	20mg/ml stabilized Hyaluronic acid	20mg/ml stabilized Hyaluronic acid	20mg/ml stabilized Hyaluronic acid	20mg/ml stabilized Hyaluronic acid	20mg/ml stabilized Hyaluronic acid
Approximate number of gel particles/ml	10000	10000	10000	10000	10000

Needle size	26G	26G	26G	26G	26G
Duration	6-12 months	6-12 months	6-12 months	6-12 months	6-12 months

Reyoungel Benefits of Reyoungel

Safe & Natural:

- From non-animal origin and high-purity
- Excellent biodegradability in the skin
- No side effect, high quality, less invasive
- Fill the wrinkles and smooth your skin without inhibiting facial expression

Instant result:

- The result lasts for 18 months. A touch up treatment after a year needs the half of the product
- Reyoungel contains the high concentration of stabilized Hyaluronic acid, which remains to longer residence time.

Fast & Effective:

- Non-surgical within 30 minutes procedure
- No hospital stay needed, short recovery
- Noticeable results after the first treatment
- Subtle breast re-shaping and fullness
